

Public Sector Services

Government organizations and agencies face a wide range of challenges, from financial constraints and changing demographics to shifting demands and priorities. Wiss's Public Sector Services Group meets the needs of organizations operating in this unique and ever-changing environment.

Professional Oversight – Knowledgeable Insight

To succeed and prosper, entities need systems, management strategies and people working together toward common goals. Wiss public sector clients are served by a group of professionals who will continue the Wiss tradition of technical excellence combined with personal attention at a partner level.

With more than 30 professionals serving in Wiss's Public Sector Services Group, our team has broad experience, diverse backgrounds, outstanding credentials, and a results-driven attitude. Key group members specialize in public sector accounting and auditing matters, including *Government Auditing Standards*, pertinent OMB Cost Circulars, OMB Circular A-133, *audits of state and local government and non-profit organizations*, and the Single Audit Act Amendments of 1996. Our team has also substantially exceeded the continuing professional education (CPE) requirements imposed by *Government Auditing Standards* as issued by the Comptroller General of the United States. Our professionals have received training in public sector compliance testing and other industry-specific accounting and auditing issues.

Client-Centered Service Philosophy

Our client-centered service philosophy focuses on going beyond the basics to meet our public sector clients' needs. Every engagement is an opportunity not only to provide the basic client services a client requires, but to identify and provide the services a client needs to be successful.

Our client-centered service philosophy also extends to the nuts and bolts of our client relationships. We focus on providing clients with a better experience in many ways. We offer the resources of a national firm with the personal attention you deserve from

a small firm. We build quality business relationships through face-to-face involvement between your key leaders and our partners and a commitment to your complete satisfaction. Finally, we deliver technically superior work in a timely fashion based on a clear understanding of your needs.

A Fresh Perspective

Wiss brings a fresh perspective to each client relationship and engagement. Although we can draw from a wealth of experience, we approach each client engagement with a clean slate to ensure that we identify and understand the nuances of your situation, needs and unique challenges. Our goal is to provide solutions that are right for your organization, not what is convenient or what may have worked elsewhere.
